CENSW Updates

UWS Housing Co-op Research Project

The Steering Committee for the Australian Research Council (ARC) funded Co-operative Housing in Australia research project has had two meetings to date. The Committee is made up of researchers and The Australian Co-operative Housing Alliance (ACHA) members. Part of the research will include the development, piloting and deployment of a Co-operative Housing survey which will enable Co-ops to articulate the benefits of the Co-op Housing model in Australia.

The Committee is meeting monthly and looking at how Co-ops can be involved in the design and implementation of the survey and in the project overall. More information to follow.
